SHOW AND JUDGING COMMITTEE REPORT

There was one change made in the Show and Judging Committee report at the Membership Meeting. The section dealing with seedlings was changed to read: "A new bloom shall only be shown two years as a seedling, or until it has been put on the market, or it has been awarded a tri-color award."

The remainder of the report was adopted for the suggested rules for shows and judging as submitted by the committee chairman, Mr. Walker Lyon. The point system is a little different from previous rules. Now they are:

1.	Size according to variety	20 points
2.	Form	35 points
3.	Color	25 points
4.	Condition	
	(a) No blemishes from spray	5 points
	(b) No blemishes from insects	5 points
	(c) No blemishes from weather	5 points
	(d) No blemishes from handling	5 points
		100

Collectors are non-commercial growers of 25 or more varieties.

The semi-double classification has been dropped from the shows. This has nothing to do with the nomenclature policy. Just the shows.

There should be a tri-color for a double and a single seedling in each show if there are seedlings that warrant this award.

The judge qualifications and requirements were divorced from this report.

A copy of the entire report can be had by writing to the Executive Secretary. In the near future a copy will be sent to all the judges on the list now on hand.
